LOGOTRON 1295 SERIES ERRATA - WRITER 1295, FILER 1295, PLANNER 1295,

INSTALLING YOUR PROGRAM ON A FLOPPY DISK

To install your program on a floppy disk, FIRSTLY FORMAT A NEW BLANK DISC (as usual), by inserting your DOS disk and typing :

FORMAT A:/S

IF THIS WORRIES YOU, READ THE DOCUMENTATION THAT CAME WITH YOUR COMPUTER, OR CONTACT THE DEALER YOU PURCHASED YOUR COMPUTER FROM FOR ASSISTANCE.

When you have a fresh formatted disk, insert your Logotron 1295 series program disk into drive A:, your freshly formatted disk into drive B: and type:

A:INSTALL FLOPPY

If you only have a single drive, insert your Logotron 1295 series program disk into drive A: and type A:INSTALL FLOPPY. When you are prompted for the disk for drive B:, insert your freshly formatted disk in drive A. You will have to swap the disks over, when prompted, several times before the installation is complete.

After executing the INSTALL program, you will be able to startup your computer from your new disk.

INSTALLING YOUR PROGRAM ON A HARD DISK

To install your program on a hard disk, at the A> type INSTALL HARD and follow the directions. After executing the INSTALL program, you will be able to start Logotron WRITER 1295, PLANNER 1295, or FILER 1295 from your hard disk.

After turning on your computer type :

CD WRITER [return] then type WRITE (if using WRITER 1295), or
CD PLANNER [return] then type PLAN (if using PLANNER 1295), or
CD FILER [return] then type FILE (if using FILER 1295) .

Be sure to set the path or pathname in SET UP for STORAGE to drive C and the directory path to /WRITER or /PLANNER or /FILER as appropriate.

NOTE TO USERS OF PLANNER 1295 : to obtain the latest version of the documentation upon release of this product, use the DOS command PRINT to print the file "DOC". At the A> type PRINT DOC.
